- EU Child Guarantee & school-based programmes
- NCDs Healthier Together (health determinants strand)
- EU Beating Cancer Plan (EU Childhood Obesity AP, AVMSD implementation, fiscal measures & pricing policy)

JA Best-ReMaP:

- Advertising & Marketing
- Food Reformulation
- Public Procurement
- Sustainable Food Systems Indicator into the European Semester

HE-funded project FEAST
kick off mid-2022

WHO Europe/HQ:

- European Obesity Progress Report 2022
- Digital Food Environments
- SSB and food taxes/fiscal incentives
- Commercial Determinants of Health

Promoting healthy nutrition and addressing food insecurity

5 minutes introduction by Loes

Integration of sustainability in FBDG

→ Synergy at EU level?
Together with EPHNA &
WHO Europe

Create a healthier food environment

- Increase & promote healthy options
- Lower # unhealthy food outlets around schools, in low income neighbourhoods...

→ Limited legal authority for local gvt due to EU Services directive

Fight against food insecurity

- Research and strategies on affordability of food
- Improve supply in food banks & other social food provision
- Promote (free) school meals

→ Extend EU school fruit, veg & milk programme?

Guided group discussion: members' exchange

1. What do you think you could contribute to this area of our joint work? (members' examples)

2. How can we move on in this field & which issues here do you consider a priority? (access, affordability, sustainability)

3. What support do you need to move forward and be able to link EU/WHO initiatives with your daily work?

Re-cap and taking forward collective thinking

Each group discusses and exchanges on members' work in this area, reflecting on 3 questions (10-15 minutes)

Groups' key messages are captured on a flipchart/post-its/by notetaker

In the 2nd and the 3rd round, both co-chairs present again & report back from previous group's recommendations

Aim: achieve a sense of progress, ownership, prioritisation, consensual thinking and deepening the conversation
