

Reorienting health systems and system leadership skills for health professionals

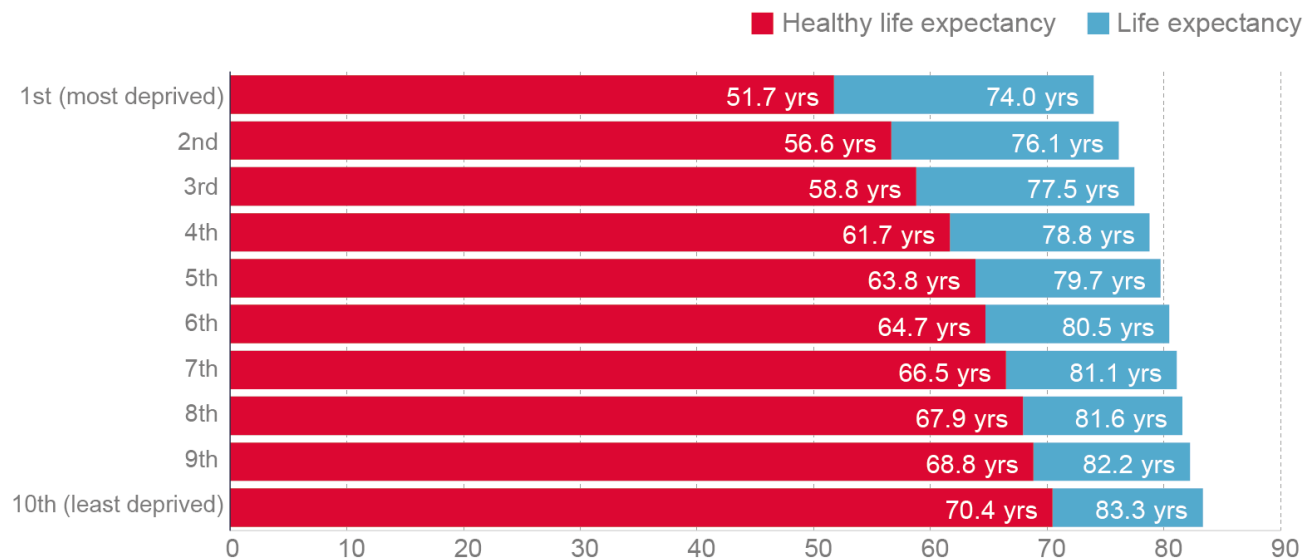

Tim Elwell-Sutton, [@tim_esPH](https://twitter.com/tim_esPH)

May 2019

The scale of health inequalities

Male life expectancy and healthy life expectancy at birth

By decile of deprivation, England: 2015-17

The role of health professionals

Goal: Move from a health system that only treats disease to one which is part creating the conditions for people to live healthy lives

- Seeing the whole person: supporting a person not just treating an illness
- Seeing the whole system: leadership in complex environments

Thank you
