Wellbeing, health and safety for all by 2030

Promotion of wellbeing, health and safety in 2030 – Government resolution

- Outlines measures to reduce inequalities in the wellbeing and health of people in Finland by 2030
- The aim is to ensure the sustainable wellbeing in all population and age groups.
- Contributes to the implementation of the UN Sustainable Development Goal Programme (Agenda 2030) in Finland
- Supports the implementation of the objectives of the Government Programme
- Strengthen the economy of wellbeing approach

Objectives for 2030

- The focus of the activities is on promoting wellbeing, health and safety, and supporting work, study and functional capacity.
- Working life is diverse, everyone's input is important and it is possible to provide it
- There are diverse ways for people to promote wellbeing, health and safety
- The service and benefit system promotes well-being and health comprehensively and implements linguistic equality
- Digital solutions strengthen digital inclusion and support everyone
- The common objectives of different administrative sectors are based on a better understanding of the starting points of individuals and communities.

Priority areas

Opportunity for all to get involved
People feel equal and involved

Good everyday environments
Everyday environment is healthy, safe, accessible and aesthetic

Measures and services promoting wellbeing and health
People have possibilities to actions to promote wellbeing, health and safety and access to high-quality and equal services

Decision-making generates effectiveness
Decision-makers promote wellbeing, health and safety and reduce inequality

Implementation

– cooperation as a mode of operation

- Achieving the objectives calls for both action across and cooperation between all branches of government as well with all stakeholder groups
- Implementation plan describes the concrete measures, their monitoring, the responsibilities and the work progress schedule.
- The intersectoral Advisory Board for Public Health guide and monitor the implementation of the resolution.
- An annual summary of the progress made with the measures, the implementation plan will be updated based on that.
- The implementation plan will be updated in a more comprehensive manner when the government term changes. It will then be updated in accordance with the priorities of the new Government Programme.

Reducing inequality

- Special attention should be paid to reducing inequality by examining and anticipating the impact of measures on inequality development
- The following shall be taken into account in the implementation of the measures:
 - Accuracy of measures and identification of their target groups
 - Development of content of services
 - Identifying weak spots (e.g in service system)
 - Closeness to natural environments and a safe social environment
