# RRF Health and Care Activities in Austria

## (1) Primary Health Care

## (2) Electronic Mother-Child-Pass Platform

## (3) Early Aid

## (4) Community Nursing

## 1. Expanding Primary Health Care

- structured cooperation between health and social professions
- comprehensive, local supply with extended opening times
- ensure low-threshold decentralised access

## 2. Electronic Mother-Child Pass Platform

- screening programme: early detection of health problems during pregnancy and early childhood
- electronic documentation and communication platform
- better accessibility for socially disadvantaged women and families

### 3. National Roll-Out „Early Aid“

- support families in vulnerable situations during the period of pregnancy and beyond
- tasks: from everyday practical support to promoting parenting skills of (expectant) mothers and fathers
- setting up regional ‘early aid’ networks in the districts not yet covered

### 4. Community Nursing

- pilot project: 150 community nurses nationwide
- contribution to relieving the burden on family carers
- coordinate various services (such as therapies and social services) and play a central role in the field of prevention

## Health and Care activities under the Austrian RRF...

- ✓ ... realisation of measures improving the health system in the face of and despite the COVID-19 crisis
- ✓ ... aim to improve health equity
- ✓ ... adress Country-Specific-Recommendations of EC

# Thank you!
