

Strategic Development Plan 2021-2026

Integrating EuroHealthNet's SDP and
core operating grant

Mojca Gabrijelčič Blenkuš
President, EuroHealthNet

Annual Policy & Strategy Meeting

21 February 2022

Rationale for new SDP

Europe is changing

- Demographic and technological change
- Rising inequalities
- Burden of the chronic and NCDs
- Environmental degradation and climate emergency

COVID-19 response offers unprecedented opportunities to

- re-shape strategies and policies on public health
- put health and wellbeing at centre of policy-making
- Act on underlying determinants

Calls for action on

- the green and circular economy
- health promotion and prevention across the lifecourse
- digital technology and health literacy
- building social resilience for better preparedness

1. Building on the Foundations

Taking forward effective and successful structures, tools and mechanisms and developing them further

OUR AIM

Improving health, equity and well-being

**Innovating interaction
between partnership
professionals**

**New alliances will help
us deliver joint objectives**

**Our communications
network will lead to a
stronger, unified voice**

**Shaping policy, practice
and increase capacities**

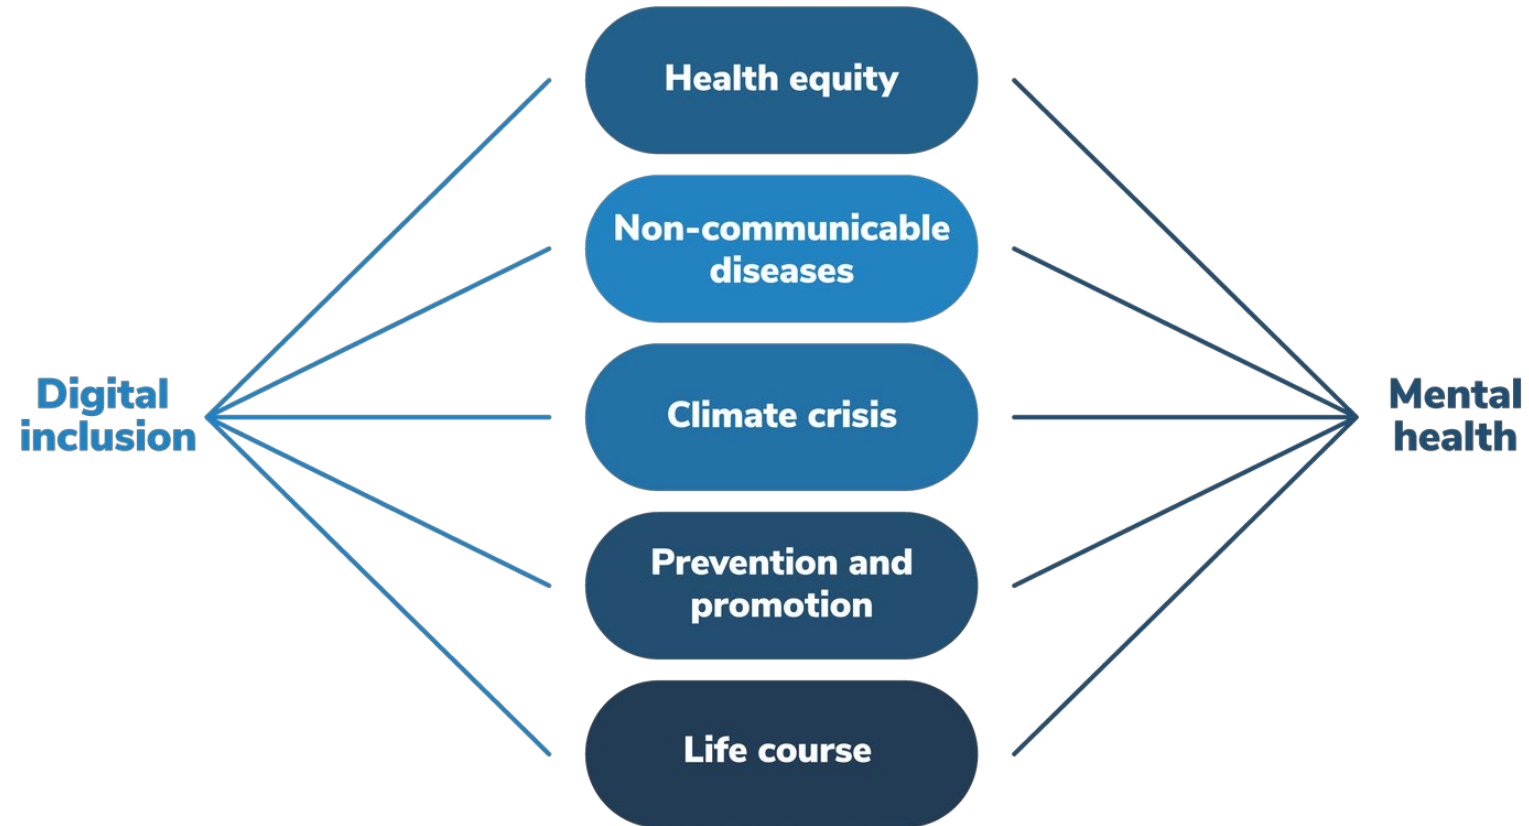

**Our EU Portal on
Health Inequalities will
act as a central source**

2. Looking at the Future

Building on the foresight exercise and identifying five priority areas for our action

5 priority areas and 2 cross-cutting topics

3. Achieving change

How can we bridge part one and two amidst COVID-19, transform into an agile organization, and respond best to current crises and solutions

EaSI Core Operating Grant

This 4-year operating grant (2022-2025) will ensure sustainability of EuroHealthNet activities over the coming period. We will continue to complement core activities with new projects and initiatives with members.

Annual “Policy Spotlights” 2022-2025

Redefining the value of care and skills across the lifecourse for a strong Social Europe

2022

- EPSR principles 1-3, 9, 11, 12, 16, 18
- EU Care Strategy
- EU Child Guarantee
- OSH Framework
- EU Pact for Skills

Social protection and health systems fit for the new world: Investing in resilient, equitable and integrated health and social protection systems

2023

- EPSR principles 10, 12, 14, 16, 18
- European Health Union plans
- WHO EPW 2021-2025
- WHO Barcelona office on financial insecurity work
- Intersectoral solutions (ESF+, EaSI, Erasmus)

Fair transitions to a new world of work: the economy of wellbeing and ensuring a socially just green and digital transformation

2024

- EPSR principles 1,3, 4, 8,9, 10

- Wellbeing Economy Alliance (WeAll)
- UNFCCC
- Green Deal
- Action Plan on Social Economy

EU social rights and health equity: the way forward to achieve EU 2030 and SDG targets

2025

- All 20 EPSR principles
- UN Strategic Development Goals
- 2025 review of EPSR

Key takeaway messages:

- The Strategic Development Plan and 4-year operating grant give the EuroHealthNet office a sound platform from which to continue developing the partnership through 2025.
- The strong focus on the European Pillar of Social Rights in the core grant complements our SDP and ensures that we bring an ‘EU policy’ lens into our strategy and work to enhance our impact.
- The new core grant supports new activities, designed in order to make EuroHealthNet’s work – and the opportunities offered by the EU – even more accessible to members.
- We count on active involvement from all members to help define annual business plans and determine content of certain activities.
