

Climate Crisis

• BlueAdapt

Researches how pathogens are affected by climate change in coastal environments and waters, as well as how this affects human health.

blueadapt.eu

• PSLifestyle

Helps to close the gap between individual action and climate awareness. An online tool will be used to calculate each person's environmental impact with tips on how to reduce it.

pslifestyle.eu

• BEST-COST

With a focus on air and noise pollution, the project will develop a new methodological framework to understand the social and health costs of environmental stressors

best-cost.eu

• RESONATE

Examines the health, environmental, economic and social impacts of green care, nature-based social prescribing and nature-based therapy.

EuroHealthNet 

Project Overview

Digital Inclusion

• BeWell

Builds a movement of health stakeholders to create and carry out initiatives to upskill and reskill the European health workforce.

bewell-project.eu

• Label2Enable

Helps to develop and implement an EU quality label for health apps to ensure trustworthy and user-friendly applications.

label2enable.eu

Life Course

• Schools4Health

Led by EuroHealthNet, Schools4Health aims to introduce, strengthen, and sustain the adoption of a health promoting school approach in 16 schools throughout Europe.

EuroHealthNet is the European Partnership of public health agencies and organisations working on public health, disease prevention, promoting health and wellbeing, and reducing inequalities.

Prevention and Promotion

• RIVER-EU

Develops interventions to address health system barriers to vaccine uptake in underserved communities and identifies the determinants of high and low vaccine uptake.

river-eu.org

• Invest4Health

Mobilises new ways of financing health promotion initiatives, where the financial benefits outweigh the initial costs and provide a sustainable return on investment.

• EU Joint Action PERCH

Provides training for health professionals and promotes national vaccination campaigns to improve the uptake of the HPV vaccine across Europe.

Overview of EuroHealthNet's projects according to priority topics

EuroHealthNet is part of many international project consortia and EU Joint Actions. Our project engagement enables collaboration within and beyond our Partnership to design policy, drive implementation, and advance research in the field of health inequalities and the determinants of health.

This flyer sets out the projects that EuroHealthNet is part of according to its priority topics. Find out more about our priority topics and strategy: eurohealthnet.eu/SDP.

Scan the QR code below

Mental Health

- **MENTALITY**
Addresses the mental health impacts of COVID-19 by piloting promising practices and creating a path for a sustainable transfer and adaptation of those practices.
- **IceHearts Europe**
Integrates mental health in grassroots sport programmes to benefit the wellbeing of vulnerable children.

NCDs

Noncommunicable Diseases

- **FEAST**
Drives a just transition to a healthier and more sustainable EU food system, aiming to achieve positive outcomes for people, the planet, as well as the public and private sectors.
feast2030.eu
- **EU Joint Action Best-ReMaP**
Helps create environments that offer healthy food by enhancing the quality of food provided to individuals.
bestremap.eu

Health Equity

- **CHAIN**
The Centre for Global Health Inequalities Research, gathers experts across sectors to advance health equity research and promote policies to protect the health of vulnerable groups.
ntnu.edu/chain
- **Dialogical+ Work**
Provides health, social, and educational professionals the training for working in an inter-sectoral environment, enabling them to face societal challenges in a coordinated way.
